#### Webinar Event

Title: Industrial IoT Application

Date: May 30, 2020

Organized by: Computer Science and Engineering Department, ITS

**Engineering College, Greater Noida** 

Time: 10: 00 AM- 11:00 AM

Centre of Excellence: SYSCOM

Platform: Zoom

Objective: The main objective of this webinar isto provide the conceptual knowledge on IoT.

### Report:

A Webinar on "Industrial IoT Applications" was conducted by the Syscom Centre of Excellence, Department of Computer Science and Engineering, ITS Engineering College on May 30, 2020.

The speaker Mr. KartikRastogi, Assistant Professor, Deptt. Of CSE and Coordinator Syscom COE explained key industrial IOT applications such as autonomous vehicle, power management, quality control and wearables. The webinar started with important of Inter of things in industry and its wide variety of applications including home automation, industry smart city and many more. The key components used in designing an IOT platform were also discussed. Later an overview of development environment like Arduino Uno, Raspberry Pi and associated IDE was give.

The webinar was organized for the 2<sup>nd</sup> and 3<sup>rd</sup> year students of CSE. The HOD-CSE congratulated the Syscom COE coordinator for taking such an initiative and making students aware about its importance and applications.

**Program Outcome:** The participants have gained extensive details of subject knowledge along with practical knowledge. Practical examples enrich their concept on IoT.

Name of Event: Virtual Automation Based Online Summer Internship Program

Date of Event: 15st May to 30th June 2020,

Organized by: ECE Department at NI Innovation Center.

Event Coordinator: Mr. Nitesh Pradhan.

Objective: 45 days Virtual Automation Based Online Summer Internship Program .

Report: The Department of Electronics and Communication Engineering of I.T.S Engineering College, Greater Noida, organized 45 days Virtual Automation Based Online Summer Internship Program. This Internship Program was coordinated and conducted by Mr. Nitesh Pradhan (Coordinator of NI Innovation Center) 15<sup>st</sup> May to 30<sup>th</sup> June 2020, . The program was based on LabVIEW, Multisim, myDAQ, my Rio and other toolkits of National instruments. There were 20 students from *ITS Engg College Greater Noida*.

#### Outcomes:

- Participants learn about LabVIEW and Arduino SimullED Software with mydaq, myRlo and Acquire knowledge.
- Designed more than 1000 program during internship.
- Designed various simulated projects and real time project
- Students completed CLAD exam-based question bank series. That is very helpful for CLAD exam.
- Two student cleared CLAD exam
  - 1. Ashish Kumar 2nd year ECE
  - 2. Sameer 3rd year ECE

#### Scope of Improvement:

More advance Level workshop/ Internship Program can be organized every year

No. of Students attended: 22

#### Work Report

Name of Event: Two Days Online Short Term Training Program on "PLC & SCADA" Date of Event May 14-15, 2020.

Organized by: Rockwell Automation- Centre of Excellence, EEE Department, I.T.S Engineering College Greater Noida

Event Coordinator: Mr. Rajiv Ranjan Objective:

To sharpen the skill of students & faculty members in the field of PLC & SCADA.

#### Report:

Rockwell Automation- Centre of Excellence, Department of Electrical & Electronics Engineering, I.T.S. Engineering College organized Two Days Online Short Term Training Program on "PLC & SCADA" on May 14-15, 2020 which was attended by 38 students and 7 faculty members. The event was started by welcome to Industry Expert - Er. Manish Dubey, Automation Expert, Sofcon India Pvt. Ltd. by Prof. Upendra K. Agarwal, HOD, EEE department, I.T. S. Engineering College, Greater Noida.

On the first day, Mr. Dubey explained about programmable logic controller (PLC) or programmable controller. PLC controller is an industrial digital computer which has been ruggedized and adapted for the control of manufacturing processes, such as assembly lines, or robotic devices, or any activity that requires high reliability, ease of programming and process fault diagnosis. He explained the Basic concepts of Relay, Switches and Digital Circuits, PLC Hardware Components, PLC Programming, RLL and process control. He guided and motivated the students by sharing his experiences with students.

On the second day, Mr. Dubey provided online training on Supervisory control and data acquisition (SCADA). SCADA is a control system architecture comprising computers, networked data communications and graphical user interfaces (GUI) for high-level process supervisory management, while also comprising other peripheral devices like programmable logic controllers (PLC) and discrete proportional-integral-derivative (PID) controllers to interface with process plant or machinery. The use of SCADA has been considered also for management and operations of project-driven-process in construction. Students learnt about Memory Tag, Animation Dialog Box, PLC & SCADA Interface and Human Machine Interface.

This training was very helpful to the students for making PLC-SCADA based project and faculty members who are guiding the student's projects in automation.

Finally, Mr. Rajiv Ranjan, Assistant Professor of EEE Department, ITS Engineering College, gave a Vote of Thanks to our Guest and participants..

#### **Program Outcome:**

Students & Faculty members upgraded their knowledge in the field of PLC, SCADA & HMI Scope of Improvement: To organize the workshop for long duration.

No. of participants: 38 students and 7 faculty members.

#### Objective:

2 DaysOnline Workshop onHardware Integration with SensorsUsing NI myRIO and Sensor kit for2nd&3rdyear ECEstudent to learn about function of RIO and FPGA Based Programming

Report: The Department of Electronics and Communication Engineering of I.T.S Engineering college, Greater Noida, organized 2 daysonline workshop on NI my RIOby Mr. Nitesh Pradhan (Certified LabVIEW Trainer) at NI Innovation Center, Center of Excellence on4th & 5th April 2020. The workshop was based on NI myRIO, mechatronics kit & Sensor kit. Student work on standalone RIO, and learn how to designing, developing, and prototyping a real-time (RT) application that handles communication between the RT target and a host computer using the LabVIEW Real-Time Module. After attending this course, you will be able to determine if an RT solution is appropriate for a given problem. There were 18 students attended the Workshop from ECE Department.

#### Outcomes:

After attending this course, participant able to:

- Design Embedded platform.
- Convert and Write FPGA target-based code;
- · If student will practicemore they will get the job in this filed

Value Added Certification Course

on

"Solar Technology"

(14 March to 15 May 2020)

For

**EEE Students** 

Resource Person

Snigdha Sharma

(Assistant Professor - EEE)

#### Introduction about the Course

About the Course: Highly efficient solar modules developed by using various photovoltaic technologies. This course will provide a platform to explore major photovoltaic technologies in the current market. Also it will focus on various technologies, which have the potential to be the major players for different applications in the future. This course will cover all aspects of photovoltaic including energy conversion, technologies and systems.

Why the Course is important to be part of this program: Solar power is the crucial future production method in the move to clean energy, and as economies of scale drive prices down; its importance will only increase. Solar energy has the least negative impact on the environment compared to any other energy source. It does not produce greenhouse gases and does not pollute the water. Although most active solar panels give average 18% efficiency but new advances have dramatically increased that number.

#### Course Objective& Outcomes:

- To develop a comprehensive technological understanding in solar PV system components.
- To provide in-depth understanding of design parameters to help design and simulate the performance of a solar PV power plant.
- Develop understanding on the PV plant design and select suitable technologies.
- Plan project implementation, operation and maintenance.
- Carry out techno-economic-environmental performance evaluation of a solar PV power plant.

#### Pre-requisites for Course:

- Familiarity with Basics of Solar energy
- · Basic understanding about power sector
- · Analytical skills to assess problems and find solution using technologies

#### Pedagogy:

 A combination of class-room interactions, assignment, tutorial, practical and case study

## Course Outline of Value Added Certification on "Solar Technology"

Lecture No.	Topic
Lecture 1	Introduction to solar power systems
Lecture 2	Determining energy needs and sizing a PV system
Lecture 3	Global solar PV deployment status, Solar policy in India  – rooftop and ground mounted cost and subsidy on solar system
Lecture 4	The growth of photovoltaic markets
Lecture 5	Review of solar radiation components, radiation on tilted surface
	Assignment 1
Lecture 6	Following solar energy from source to panel
Lecture 7	PV sizing and output under different conditions
Lecture 8	Types of PV systems: Design considerations for standalone plant
Lecture 9	Design considerations for grid connected plant
Lecture 10	Rooftop PV plant: design consideration
	Assignment 2
Lecture 11	Types of mounting structures, standards
Lecture 12	Ground mounted PV plant: Array design and PV panel mounting, electrical layout, standards
Lecture 13	Performance parameter: Losses in solar PV power plant. Yield
Lecture 14	Capacity Utilization Factor and Performance Ratio
Lecture 15	PV module technology: c-Si, Thin-film technology
Lecture 16	Response to weather parameters
Lecture 17	Commercial module ratings, standards
	Assignment 3
Lecture 18	Inverter technologies
Lecture 19	Types of inverters, inverter selection
Lecture 20	Performance, power quality
Lecture 21	Module mounting structure, tracking system
Lecture 22	Net Metering
Lecture 23	Introduction to battery
	Assignment 4
Lecture 24	Battery technologies
Lecture 25	Standalone system and utility scale storage
Lecture 26	Solar radiation in an area
Lecture 27	Operating cost of home appliances

Lecture 28	Preliminary site survey and feasibility study
Lecture 29	Solar home system design
BURNES.	Assignment 5
Lecture 30	Monitoring of PV plant
Lecture 31	Best practices in operation, cleaning and maintenance
Lecture 32	Project
	Seminar/ Expert talk / Industrial Visit
Lecture 33	Assessment Test

#### Assessment methodology:

Quiz / Assignment Contribution	Test Contribution	Certification				
40%	60%	Yes if Score  □ 60				
		No if Score []				
		60 , Retest

#### Introduction about the Course

About the Course: This course teaches computer programming to those with little to no previous experience. It uses the programming system and language called MATLAB to do so because it is easy to learn, versatile and very useful for engineers and other professionals. MATLAB is a special-purpose language that is an excellent choice for writing moderate-size programs that solve problems involving the manipulation of numbers. The design of the language makes it possible to write a powerful program in a few lines. The problems may be relatively complex, while the MATLAB programs that solve them are relatively simple: relative, that is, to the equivalent program written in a general-purpose language, such as C++ or Java. As a result, MATLAB is being used in a wide variety of domains from the natural sciences, through all disciplines of engineering, to finance, and beyond, and it is widely used in industry. Hence, a solid background in MATLAB is an indispensable skill in today's job market.

Why the Course is important to be part of this program: An introductory programming course uses MATLAB to illustrate general concepts in computer science and programming. Students who successfully complete this course will become familiar with general concepts in Electrical and Electronics Engineering, gain an understanding of the general concepts of programming, and obtain a solid foundation in the use of MATLAB.

#### Course Objective& Outcomes:

- You will learn fundamental computer programming concepts such as variables, control structures, functions and many others.
- You will learn about various data types and how to handle them in MATLAB.
- You will learn the powerful support MATLAB provides for working with matrices.
- You will learn about file input/output.

#### Pre-requisites for Course:

- Good knowledge of mathematical terms, like matrix, array, algebra, numbers, polynomial, differential equations.
- Computer\Laptop with licensed version of MATLAB

#### Pedagogy:

Engineering problem solving using MATLAB

## Course Outline of Value Added Certification on "Introduction to Programming with MATLAB"

Lecture No.	Content									
Lecture 1	MATLAB (Basics): Introduction to MATLAB, MATLAB as a sophisticated calculator									
Lecture 2	Syntax and semantics and creating plots in MATLAB.									
Addition, Subtraction, Multiplication, and Division of matrix various MATLAB operators										
Lecture 4	Different operation performed on matrices using MATLAB									
Lecture 5	Functions: Introduction to the function									
Lecture 6	Splitting the complex problem via function									
	Assignment 1 (Quiz/Programming Assignments)									
Lecture 7	Using the built-in function of MATLAB									
Lecture 8	Random number generation and using it for different assignment									
Lecture 9	How to print on command window									
Lecture 10	Plotting the graph									
Lecture 11	Finding the programming Error									
Lecture 12	Debugging the programming error with help of Debugger									
	Assignment 2 (Quiz/ Programming Assignments)									
Lecture 13	Use of If statement									
Lecture 14	How to use Nested If statement									
Lecture 15	Relational and logical operators									
Lecture 16	How to use different operators in MATALAB									
Lecture 17	How to use For Loop									
Lecture 18	How to use While Loop									
	Assignment 3 (Quiz/ Programming Assignments)									
Lecture 19	Break statement									
Lecture 20	Logical Indexing									

Lecture 21	Introduction to the Data types
Lecture 22	Character array and Structures
Lecture 23	Cells type data
Lecture 24	The string type data
	Assignment 4 (Quiz/ Programming Assignments)
Lecture 25	Introduction to the Data types
Lecture 26	Character array and Structures
Lecture 27	Cells type data
Lecture 28	The string type data
Lecture 29	File input\ output
Lecture 30	Excel file handing in the MATLAB
Lecture 31	How to create, read and write in MAT-files and Excel file
Lecture 32	Introduction to various toolbox of MATLAB used in Electrical and Electronics Engineering.
	Workshop / Expert Talk / Seminar
Lecture 33	Project
Lecture 34	Assessment Test

## Assessment methodology:

<b>Test Contribution</b>	Certification
60%	Yes if Score
	No if Score D

Name of Event: One Day Workshop on Robotics & IOT

Date of Event: March 3, 2020.

Organized by: EEE Department, I.T.S Engineering College Greater Noida

Event Coordinator: Mr. Rajiv Ranjan

#### Objective:

To enhance the technical knowledge in Robotics & IOT

#### Report:

Department of Electrical & Electronics Engineering, I.T.S Engineering College Greater Noida organized One Day Workshop on Robotics & IOT for B.Tech students on March 3, 2020. The workshop is conducted by Mr. Shashant Kumar, Robotics & IOT- expert from Sofcon India Pvt Ltd. The Robotics & IOT technology deals with the concepts involved in interdisciplinary branch of engineering and science that includes Mechanical Engineering, Electrical & Electronics Engineering, Information technology, Computer science and others. Robotics deals with the design, construction, operation, and use of robots, as well as computer systems for their control, sensory feedback, and information processing. The Internet of things (IoT) is a system of interrelated computing devices, mechanical and digital machines are provided with unique identifiers (UIDs) and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

In today's workshop students learned about concepts of Robotics, Embedded C Programming, IR Sensor applications, Motor controlling through driver IC and Simulation on Proteus in first half of the session.

In post lunch session participants were able to understand about concepts of IOT, Raspberry pi, user interface development and hands on practical of home automation.

Finally, Mr. Rajiv Ranjan, Assistant Professor of EEE Department, ITS Engineering College, gave a Vote of Thanks speech.

### Program Outcome:

Students learnt about design consideration for Robitics & IOT System

Scope of Improvement: To involve the students for Project work and internship in Robitics & IOT technology.

No. of Faculty attended: 06 No. of Student attended: 62

#### Name of Event

One Day Arduino Simulation Workshop

Date of Event:

14th Feb 2020

Organized by: ECE Department at NI Innovation Center.

Event Coordinator: Mr. Nitesh Pradhan,
Objective: Arduino Simulation using Arduino SimulED Software.

#### Report:

The Department of Electronics and Communication Engineering of I.T.S Engineering College, Greater Noida, organizedOne Day Arduino Simulation Workshop. This Workshop was coordinated and conducted by Mr. Nitesh Pradhan Coordinator of NI Innovation Center on 14<sup>th</sup> Feb 2020. The program was based on Arduino SimulIED Software which is an virtual platform for Arduino board simulation.

No. of Students attended: 43

1	3rdyear ECE	26	I.T.S Engg
2	2nd Year ECE	14	I.T.S Engg
3	4th Year ECE	03	I.T.S Engg

#### Outcomes:

- Student use Simuled a learns how can they design and work in Virtual Arduino board
- Now student able to design, test and verify their code and logic.

Now student are able to design Arduino based projects virtually

has been advised of the possibility of such damages. Aon's liability for damages under this Agreement will not exceed the amounts actually paid by the Client to Aon.

Each Party agrees to indemnify the other Party for such claims, suits, losses and damages, including litigation
costs, attorney fee and settlement costs (if any), (collectively Liabilities) being suffered by the aggrieved Party as a
direct consequence of breach of its confidentiality and intellectual property related obligations under this
Agreement.

#### 10. Ownership and Control of Data and Work Product

#### a. Client Information

Client Information shall include all nonpublic information, data, and materials (in whatever form or media), including personal information of its employees, provided to Aon, under this Agreement, by or on behalf of Client. Subject to Client's payment of relevant fees, Client will own all "Deliverables" which means all material specifically developed for the Client by or on behalf of Aon relating to the services including written advice, letters, and reports. The Client represents that the use of the Client Information contemplated in this Agreement will not infringe the privacy and/or intellectual property rights of any third party and that the Client has obtained all consents or authorizations of any such third party necessary for such use of Client Information. Client Information will remain the property of the Client, and Aon agrees not to remove any copyright notices from such Client Information or use such Client Information except internally in connection with the corresponding Services.

#### b. Aon Information

Aon retains all proprietary rights in the "Aon Information" which means (i) the general knowledge, know-how (including processes, methodologies, ideas, concepts, techniques and other tools that are of generic application to the business of Aon), any skill acquired or developed by Aon in the course of this Agreement and any and all proprietary rights therein and any other documents, information or materials of generic application to Aon's business and derivatives thereof and any materials created prior to or during the performance of the services; (ii) all information and materials which are not Deliverables but which are provided to the Client by or on behalf of Aon or which is embedded in the Deliverables; (iii) any of Aon's websites (including websites or on-line portals, general purpose consulting and software tools, templates, standard materials and derivatives thereof, through which Aon may perform the services), and all intellectual property rights therein.

#### c. Advice and Exclusive Use

Deliverables will be addressed to the Client and provided for Client's exclusive benefit and use and solely for the purpose for which it is provided. Other than as permitted in this Clause, Client agrees not to distribute or disclose, in whole or in part, any Deliverables and Aon Information to any third party.

Notwithstanding the above, where necessary for the management of Client's affairs Client may pass Deliverables and Aon Information to its group companies or its professional business advisers for information purposes only provided that:

- any such disclosure is made in the normal course of Client's business affairs;
- ii, the Information is disclosed in full and no disclaimers are removed from the Deliverables and Aon Information prior to disclosure; and
- iii. where disclosure is to its group companies, Client agrees to procure that all such recipients accept such Deliverables and Aon Information on the basis that (i) our aggregate liability, collectively, to those recipients and Client, is not greater than Aon's aggregate liability to the Client as set out in this Agreement and (ii) they are subject to an obligation not to disclose such Deliverables and Aon Information to third parties.

#### d. License to Use

To the extent that Aon utilizes any Aon Information, in connection with the performance of Services, such Aon Information shall remain the property of Aon. Except for the limited license expressly granted in the following paragraph, the Client shall acquire no right or interest in such property.

Subject to the provisions of this Agreement, Aon grants to the Client a non-exclusive, non-sub-licensable, nontransferable license to use the Aon Information solely for the Client's internal use. To the extent such license covers Aon Software; such license shall terminate and expire upon the termination or expiration of Aon's provision of Services related to such Aon Software. Except as otherwise expressly permitted herein, the Client will not copy Aon Information, except for one copy for the back-up or archival purposes.

#### e. Restrictions

Client will not (i) create derivative works based on, modify, or translate the Aon Information, (ii) sell, assign, distribute, lease, market, rent, sublicense, transfer, or otherwise grant rights to the Aon Information in whole or in part to any third party. (iii) obfuscate, remove or after any of the internet links or copyright or other proprietary legends that are in the Aon Information or that are displayed on pages served by the Aon Information, (iv) reverse engineer, decompile or disassemble Aon Software or any part thereof or otherwise obtain or attempt to obtain the source code for Aon Software.

#### f. Ownership or proprietary rights

This Agreement does not grant or otherwise give either Party ownership in or other proprietary rights to use the other Party's trademarks and other intellectual property, except as explicitly authorized for herein.

#### 11. Confidentiality

- a. For the purposes of this Agreement, "Confidential Information" includes: (i) the terms of this Agreement, (ii) Client Information; (iii) Aon Information; (iv) oral and written information designated by a Party as confidential prior to the other Party obtaining access thereto; and (v) oral and written information which should reasonably be deemed confidential by the recipient whether or not such information is designated as confidential. Each Party's respective Confidential Information will remain its sole and exclusive property.
- b. No Party will disclose the other Party's Confidential Information to a third party without the prior written consent of the other Party, except to their employees who have a need to know the Confidential Information of the other Party (and in case of Aon, any affiliate or third party service provider providing back office/IT support). Ann may use Client's Confidential Information in combination with other data for statistical or analytical purposes provided that no such Client Confidential Information is identifiable by the Client or the Client employee and either Party may disclose the other Party's Confidential Information to its legal counsel and auditors. Aon may also disclose Client's Confidential Information to any subcontractor or to any other third party, as instructed by the Client, providing services to the Client in connection with this Agreement as reasonably necessary for such subcontractor or third party to perform its services, provided that any such subcontractor is subject to a confidentiality agreement. The confidentiality obligations set out in this Agreement will continue in full force for a period of 3 years from the Execution Date.
- c. If so requested by the disclosing Party and subject to the provisions of this Agreement, the receiving Party will promptly destroy or cause to be destroyed, or return or cause to be returned to the disclosing Party, all Confidential Information received from or on behalf of the disclosing Party. Either party may retain a copy of the Confidential Information as required by any law or regulation, their record retention policy, or to defend its work product provided that such Confidential Information is retained in accordance with the terms of confidentiality obligations under this Agreement. For the avoidance of any doubt, if it is technically impossible to expunge any Confidential Information from the receiving Party's IT systems, such residual Confidential Information will continue to be subject to the confidentiality obligations set out in this Agreement.
- d. Confidential Information does not include information if and to the extent such information: (i) is or becomes generally available or known to the public through no fault of the receiving Party. (ii) was already known by or available to the receiving Party prior to the disclosure by the disclosing Party. (iii) is subsequently

disclosed to the receiving Party by a third party who is not under any obligation of confidentiality to the Party who disclosed the information, (iv) is required by law to be disclosed as part of a judicial process. government investigation, legal proceeding, or other similar process, or (v) has already been or is hereafter independently acquired or developed by the receiving Party without violating any confidentiality agreement with or other obligation to the Party who disclosed the information.

e. If the receiving Party is required to disclose the Confidential Information of the disclosing Party as part of a judicial process, government investigation, legal proceeding, or other similar process, the receiving Party

will give prior written notice of such requirement to the disclosing Party.

- f Aon and the Client shall comply at all times with any and all applicable laws relating to personal data protection and any and all legal conditions that must be satisfied in relation to the collection, transfer, processing, storage, and destruction of personal information. Client agrees that Aon may transfer these documents, physically or electronically, to its personnel and affiliates in India or overseas in connection with the performance of this Agreement.
- 12. Both Parties will comply with all applicable laws, rules, orders, statutes, and regulations.
- 13. Parties agree that during the term of this Agreement and for a period of 12 months after the expiry or termination of this Agreement, neither Party will induce or attempt to influence, directly or indirectly, any employee of the other Party or its contractors to terminate his/her employment and work for such Party or any other person. Nothing herein shall prevent either Party from hiring an employee of the other Party who responds to an advertisement (through mass media) for employment opportunities.
- 14. This Agreement will be governed by and construed in accordance with the laws of India. Each Party agrees to submit itself to the exclusive jurisdiction of the courts of New Delhi.
- 15. In the event of disputes, claims arising out of or in connection with this Agreement or in any way relating hereto or any term, condition or provision herein mentioned or the construction or interpretation thereof the same shall be governed by the Indian Arbitration and Conciliation Act 1996. The Tribunal shall consist of a sole arbitrator appointed by the mutual consent of both the Parties. The language of the arbitration shall be English. The seat of arbitration shall be New Delhi. The fees of arbitration will be borne by the Party as directed in the arbitration award.
- 16. This Agreement, (i) embodies the final, complete and exclusive understanding between the Parties with respect to its subject matter, (ii) replaces and supersedes all previous oral or written agreements, understandings or arrangements between the Parties; (iii) may be signed in counterparts, each of which will be an original and all of which will constitute one and the same document, and (iv) may only be amended in a writing signed by an authorized officer of each Party hereto. The Parties acknowledge and agree that any pre-printed terms on any transactional or other document used in connection herewith are per se null and void and of no force or effect.

### WORK REPORT ON INDUSTRIAL VISIT

Name of Event: An Industrial Visit for students of B. Tech. 3<sup>rd</sup> Year ECE at New Holland Tractor, Plot No. 03, Udyog Kendra, Ecotech III, Greater Noida, Uttar Pradesh 201306

Date of Event: September 22, 2017

Organized by: Department of Electronics and Communication Engineering, I.T.S

Engineering College, Greater Noida

**Event Coordinator:** Dr. Monika Bhatnagar, Assistant Professor and Mr. P. K. Pradhan, Assistant Professor, ECE Department

**Objective:** To provide students an overview of the Automation systems and how tractor assembling is carried in a manufacturing and assembling unit. The students were briefed about CNH, its various training programs and its infrastructure.

### About New Holland:

New Holland Agriculture began its operations in India in 1998 with the launch of its first 70 HP tractor in the Indian market. Since then, it has tasted unequalled success with more than 300,000 tractors sold in numerous applications across India and abroad. New Holland Agriculture currently offers technologically superior range of 35 HP to 90 HP tractors in India. It is the first company in India to offer most appropriate & advanced range of mechanization solutions to Indian farmers for enhancing crop productivity and profitability.

Report: At 10:00AM we all departed for industrial visit in college bus and reached the venue at 10:45 AM. (Attendance Taken)

About at 11:00AM introduction to New Holland started where one executive explained the brief history and working of research and production at CNH.

About at 12:00NOON we visited the production area which was included manufacturing, assembling and testing area.

About at 02:00PM Lunch

02:30PM to 03:30 visited to testing area.

03:30PM to 04:00 gift distribution to students.

04:00PM Came back to college. (Attendance Taken).

Program Outcome: After successful completion of industrial visit at CNH, Greater Noida, our students learnt the following concepts.

Automation in manufacturing and assembling industry.

Industry/ corporate work culture.

trs Engineering College

- Target base production system.
- > Team work.
- Research and development work.
- Importance of quality in product.
- Safety of manpower.

Scope of Improvement: One day workshop or a guest lecture from the officials of CNH, Greater Noida to get an insight into basic automation technologies and latest development in the field of Automobile Manufacturing.

Industrial Visit Objective: To provide students an Industrial exposure about the Automation in bottling plant of Biselri International.

Report: Students started their journey from college campus at 09:30 AM via college bus and reached at the Besleri plant Ghaziabad around 10:30 AM. A detailed information regarding the bottling process at the plant is provided by Ms Anita Tikoo (Assistant Manager). She elaborated the process that how the raw water is processed at the plant to makes it mineral added water (Packaged Water with Minerals). She also told about the various product manufactured at the plant. After that students were divided into two batches (20-20) for the plant visit. Mr Vikas Gupta (Manager-Process) guided the students about the various sections of the plant. Students were taken to the different section of the plant started from raw water bore well, storage tank, RO Unit, Bottling section, Light monitoring section and the packing section. Students were also received the certificate of Industrial visit and the refreshments from the company official.

The industrial visit was concluded with the vote of thanks from the students and faculty members on behalf of ITS Engineering Greater Noida. Students reached the college campus at 4:00 PM.

### Program Outcome:

Student's expose to

- How the raw water is processed to make it mineral added water.
- Various Automation processing units of plant were shown to students.
- Importance of mineral water over the raw water.

Scope of Improvement: Visit to bigger automation plant to provide the students better exposure to the

Name of Event: An Industrial Visit for students of B. Tech. 2<sup>nd</sup> year & 3<sup>rd</sup> year ECE & EEE at Enkay Solar Power Infrastructure (P) Ltd – Greater Noida.

Date of Event: October 19, 2021 (Tuesday)

Organized by: Department of Electronics and Communication Engineering & Department of Electrical & Electronics Engineering, I.T.S Engineering College, Greater Noida.

Event Coordinator: Mr. Prabhakar Sharma, Assistant Professor ECE Department & Mr. Upendra Agarwal, Assistant Professor, EEE Department.

Visit Objective: The objective of this visit is to explore our students to the manufacturing process of Photovoltaic (PV) cell used in the solar plants. Students can understand the importance of renewable energy because conventional resources are limited in nature and produce by-products that are very harmful to the environment. Being an engineer we know the importance of resources and currently government is also promoting solar energy utilization (commercially as well as home usage).

Report: Students were visited industry Enkay Solar Power Infrastructure Pvt Ltd – Greater Noida at around 11:00 AM. After formalities with the plant manager (Mr. Trilok), we proceed to the different sections in the plant where various processes of manufacturing solar panel were going on.

Plant engineers explain the working of many automatic machines used in the process like PLC machine used in automatic pasting and cutting PV-silica, automatic sholdering machine, heat chamber, testing machines etc. In this industry 2W to 405 W PV-modules are manufactured(with Teflon and flexible transparent fiber). Engineer explained the process, precaution and maintenance of solar plant. This was very interesting for the students that they learn the whole process of installation at the plant site.

### **Program Outcome:**

Student's expose to

- The working of latest automatic machines used in industries (automatic laser cutting, lamination machine, heat chamber, pasting etc).
- · Various material used in the manufacturing of PV-modules.
- Manufacturing process of PV-module

Scope of Improvement: Plan more such type of visits and conduct some workshop so that our students can better understand the process of manufacturing of solar panel.

Date of Event : 10th May 2022

Organized by : ECE -ITS Engineering College- Greater Noida

Time of event : '2:00 to 6:00P.M

Event Coordinator : Mr. Prabhakar Sharma (Assistant Professor –ECE Department) & Mr. Sachin Sinha (Assistant Professor –MBA Department).

### Report:

Today, ECE students of ITS Engineering College, Greater Noida, went for an industrial visit to the Uniparts India Ltd, Noida Phase II, which is an Indian based Global manufacturer of engineered systems and solutions. The group is one of the leading suppliers of systems and components for the highway market with its products reaching over 25 countries worldwide.

It has strong competencies in forging, machining, wielding, heat treatment, logistics, quality and testing etc. Its product portfolio includes core products verticals of 3-point linkage system (3PL) and precision machined parts (PMP) as well as adjacent product verticals of power take off, fabrications and hydraulic cylinders or components thereof.

Students were briefed by Mr. Vidhur Sharma, Production Manager about the company, products and market segments. Students took a round of plant, where they saw production line, including shop floor functions, wielding line, plating line, painting line, CED, assembling line, heat treatment line and packaging during the plant visit.

Number of Students Attended - 13 Students- 4 from 3rd ECE and 9 from 2nd year.

### Program Outcome:

- Understand various processing in manufacturing plants.
- Understand the application of automation in different processing (CNC and PMT)
- Understand various workshops (wielding, painting, cutting, furnace etc) in manufacturing plants.

Name of Event: An Industrial Visit of B. Tech. 3<sup>rd</sup> Year ECE & EEE Students at training Institute sector 16 Noida and DESU-Terminal, New Delhi

Date of Event: March' 22, 2017

Organized by: Department of Electronics and Communication Engineering & Electrical and Electronics Engineering I.T.S Engineering College, Gréater Noida

Event Coordinator: Prabhakar Sharma, Assistant Professor, , ECE Department and Mr. Gaurav Kesarwani, Assistant Professor, EEE Department

#### Industrial Visit Objective:

- Student can understand the PLC/SCADA utility in automation especially in gas industry.
- Student can see the live equipments like RTU(Remote Terminal Units), FC, GC, gas chromatograph centralized SCADA system etc,
- Student can understand the mechanism of CNG/PNG supply to different vendors like NTPC, PPL, IGL etc.

Report: The students were visited two places of GAIL (India), First GAIL training Institute at sec-16,A Noida and Second DESU-Terminal New Delhi.

GAIL Training Institute, Noida: This is the Training Institute of the GAIL(India) Employees,. Here first chief manager Mr. Ajaydeep Sharma welcome all students of ITS and introduce Dy. Manager Mr. Dushyant kumar. Than Mr. kumar demonstrate about the SCADA system in GAIL plants. He explained about the various elements of SCADA system like TREG, GC, FC, RTU, LEL etc. He also explained the various pipelines in India and how they control the flow of gas in SEVEN states without any failure. He also demonstrate through the animated slide that how the signals (like temperature, pressure etc.) from RTU (Remote Terminal Unit) is transmitted from the remote location to the main master stations in NOIDA and JAIPUR(backup station). After taking lunch at the officer canteen in GAIL, we moved to GAIL-DESU Terminal along with Dy. Manager Mr. Dushyant Kumar.

GAIL DESU-Terminal, New Delhi: GAIL, a Maharatna Public Sector. This is the Delhi/NCR distribution terminal of GAIL, from where they supply natural gas mainly CNG, LNG to PPCL (Pragati Power Corporation Ltd.), IGL (Indraprastha Gas Ltd.) and IPGCL (Indraprastha Power Generation Corporation Ltd.). At DESU site, Mr. Anil Prasad Gupta (Manager-Instrumentation) explained the overall plant with live demonstration of gas flow in Delhi. Mr Gupta explained various components function in field like FC, GC, chromatographer, valves, SCADA panel, LEL panel, control panel etc.

#### Program Outcome: Students expose to

- the PLC/SCADA operation for control, supervise and data acquisition in real time.
- the various security points and how maintenance is maintain in automation industries.
- the various SCADA components function in the field like FC, GC, chromatographer, LEL etc.
- the Gailtel network of GAIL-India across India.
- importance of PLC/SCADA in automation industries.

Scope of Improvement: More PLC/SCADA base automation industries visit like pepsi, HONDA, BOSCH etc.

Name of Event: Industrial Visit to STS Utility Services, Greater Noida

Date of Event: 16th Sept 2017.

Organized by: EEE Department, I.T.S Engineering College Greater Noida

Event Coordinator: Mr. Rajiv Ranjan & Mr. Gurusharan Singh

#### Objective:

 To enhance the technical knowledge and to make them feel the work culture in Power System Manufacturing Company.

#### Report:

Department of Electrical & Electronics Engineering, I.T.S. Engineering College organized an Industrial Visit to STS Utility Services, Greater Noida on 16<sup>th</sup> Sept 2017 for EEE Students.

Students visited the Design and Manufacturing section of Power Transformer, Distribution Transformer, Current Transformer, Potential Transformer and Relays used by Power System Generation, Transmission and Distribution comanapies. The designer first needs several known factors to design a transformer. For a transformer using a sine or square wave, one needs to know the incoming line voltage, the operating frequency, the secondary voltage(s), the secondary current(s), the permissible temperature rise, the target efficiency, the physical size one can use, and the cost limitations. Once these factors are known, design can begin.

The designer first starts with the primary voltage and frequency. Since they are a known factor, they are the first numbers to be plugged into the equations. One then will find the power in watts (or volt-amperes) of each secondary winding by multiplying the voltage by the current of each coil. These are added together to get the total power the transformer must provide to the load. Students also got to know about Winding Design, Core Design, Tank Design and their manufacturing pricesses.

#### Program Outcome:

- To know the design consideration of Power Transformer, Distribution Transformer, Current Transformer, Potential Transformer and Relays.
- To aware about work culture in Power System manufacturing company.

### Industrial Visit to Nuclear Atomic Power Station, NPCIL- Narora

Event Name: Industrial Visit to Nuclear Atomic Power Station, Narora

Organized by: Department of Electrical & Electronics Engg.

Date: 21/04/2018

Coordinated By: Mr. Upendra Kumar Agarwal

### Objective of the Event:

Student can understand the basics of power generation by nuclear process.

- Student can see the live working of nuclear power plant including different cycles such as fuel cycle and water cycle.
- Student can understand the importance and prescribed guidelines for industrial safety in nuclear environment.

### Report:

Departure from I.T.S Engg. College, Gr. Noida: 7:00 AM Arrival at Narora Atomic Power Station: 11:00 AM

#### Session -1: Introduction Session

It is is conducted by Mr. Mukesh Kumar, Sr. Technicain, Station Traing Centre. In this session, he introduce d our students about the general information of the plant including its history installed capacity, generation capacity, environmental effect of the plant and various social initiatives taken by NPCIOL. He also discussed about future planning of government regarding installation of various nuclear plant across the country.

### Session-2 Plant Campus Tour Session

This session was conducted by Mr. Kanchhi Singh, Sr. Assistant (Grade -1), HR Department. In this session, our student along with faculty members have visited cooling tower, control room, turbine section, Alternator, transformer units and sub-station of the plant. The nuclear reactor units were also visited from outside only as per GOI directives regarding nuclear radiation safety. The plant has two units each of 220 MW installed capacity with separate cooling towers, reactors, turbines and generators.

#### Session-3 Interactive session with students and faculty

This session was conducted by Mr. Gaurav Sharma, Superintendent, Station Taining Centre In this session Mr. Sharma interacted with our students about their perception for nuclear energy. He also explained about the role of nuclear power plant in economic growth of energy sector in India. He also discussed that nuclear power plant are environmentally safe and economically

viable. He also emphasized on the all measures taken by plant regarding industrial safety especially related with nuclear radiation.

Departure from Narora Atomic Power Station: 03:00 PM Return at I.T.S Engg. College, Gr. Noida: 07:00 PM

Industry visited by: 03 Teaching Faculty, 02 Lab Technicians and 30 Students (List Attached)

### Outcome:

- A great opportunity to visit an intuition of National Importance.
- Exposure to the power generation process in nuclear station.
- Developed understanding towards various water cycles and fuel cycles.
- Understanding towards industrial safety in nuclear environment.

Pictures: Not possible as NO photography is allowed inside, outside and in nearby areas of Narora Atomic Power Plant.

### INDUSTRIAL VISIT REPORT

Name of Event: An Expo Visit for students of B. Tech. 3<sup>rd</sup> and 4<sup>th</sup> Year EEE at India Expo Centre – Greater Noida (REI-2019).

Date of Event: September 20, 2019

Organized by: Department of Electricals & Electronics Engineering, I.T.S Engineering College, Greater Noida.

Event Coordinator: Mr. Prabhakar Sharma and Mr. Praveen Bhola, Assistant Professor, EEE Department.

Expo Visit Objective: To provide students an overview of various types of renewable energy that is currently used especially Solar Energy. Students can know the various companies working in renewable energy sector and scope for the electronics engineers in these companies...

Report: Students were visit India Expo Center -Greater Noida around 01:45 PM. After registration, we visit different stalls of multinational companies from Korea, china, Thailand, Japan, India etc who are dealing in SOLAR/BIOGAS energy devices. Students are very surprised to see the new innovations in renewable energy mainly in Solar and Bio.

REI is a leading expo in its domain. The 13<sup>th</sup> REI was the most comprehensive and reputed global platform where India's green economy community congregates to discuss industry trends, challenges and market insights including the Indian regulatory framework in presence of international stakeholders of repute. Bringing together manufacturers, EPC and service providers, the expo had many reputed Exhibitors including Longi solar, Jinko solar, Vikram Solar, Waaree Energies Sungrow, neosol, NEDO, Canadian Solar, KOSOL energies Mahindra Susten, ABB, Siemens Gamesa, Patanjali, Havells, Delta, Aplex, Solare, SunRay, Suntech, DUPOINT Meyer Burger and growatt, amongst others.

#### Program Outcome:

Student's expose to

- Witness of the recent innovations and technological advancements in Renewable Energy Sector
- Various multinational companies who are dealing in renewable energy.
- · Recent Advancement in Solar energy generation.
- The importance of Green energy.

Scope of Improvement: Visit any Industry dealing in solar panel production, so that our students can better understand the process of manufacturing solar panel.

### Objective:

 To provide industrial exposure in Automation Industries and to make students aware about use of PLC, SCADA, VFD & HMI in industry

### Report:

Department of Electrical & Electronics Engineering, I.T.S. Engineering College organized an Industrial Visit to OMAC Automation, Noida on 19th February, 2020 for EEE Students.

B.Tech. EEE Students visited operation and application of PLC, SCADA, DCS, Electrical Drives, MCC, PCC and Instrumentation. The industry served primarily Paper Mill, Steel Rolling Mill, Cement Plant, Water Management, Captive Power Plant, Process Plant, Manufacturing Industry to name a few besides a diverse spectrum. The main strength of Company is to provide integrated solution beginning with detailed design to total Commissioning and handing over the plant for operation. Mr. Sandeep, Automation Engineer, explained our students about live automation projects like Water Level Controller, PH controller and other SCADA projects working in Delhi Metro and Power GRID. Students also worked on Programming of PLC along with Automation professionals.

### Program Outcome:

- To know the Industrial Automation Projects and
- · To aware about work culture in Automation Industry

Organized by: Department of Mechanical Engineering, LT.S Engineering College, Greater Noida.

Event Coordinator: Dr. Akant Kumar Singh, Mr. Rohan Srivastava, Mr. Madan Mohan Puram and Mr. Aseem Mishra, Assistant Professor, Department of Mechanical Engineering.

Industrial Visit Objective: To provide students an overview of various types of hydraulic power lift and three point linkages used in Tractor industry. Students can know about the various steps involved in the fabrication of these products. Students can see the various machines used to fabricate hydraulic power lift and three point linkage.

Report: Students visited the Mita India Pvt. Ltd. Company that is situated in Ghaziabad. Company manufactures hydraulic power lift and three point linkages. Students reached Mita India Pvt. Ltd. Ghaziabad at around 10:30 AM. They have a meeting with HR head. He has summarized about the product and work function of company. After interaction with HR head, they visit to the plant. They have the information about the manufacturing procedure of hydraulic power lift and three point linkages. They also have the working information about the different type of manufacturing machines placed inside the plant. Further, they visit to testing and quality control department. They got the information about the testing and quality standard of the company.

#### Program Outcome:

Student's expose to

- Witnessthe robotic welding process of three point linkages components.
- Witness the machining process of hydraulic power lift and three point linkages.

#### Industrial Visit Report

Name of the Event: Industrial Visit of B.Tech 2<sup>nd</sup> and 3<sup>rd</sup> year students Visited Industry: Taehwa Enterprises India Pvt. Ltd., Kasna, Greater Noida

Event Coordinator(s): Prof. Manvendra Yadav

Date of Event: 22/12/2021 (Wed.) Time: 12.30 P.M. - 3:30 P.M.

#### Objective:

To understand the basic aspects of Electromechanical manufacturing of various automobile parts.

#### Main Report:

Department of Mechanical Engineering, ITS Engineering College, Gr. Noida organized an Industrial Visit in Taehwa Enterprises India Pvt. Ltd., Kasna, Greater Noida on 22<sup>nd</sup> Dec., 2021.

Headquartered in Korea, TAEHWA is a leading Electromechanical Manufacturing Services (EMS) provider focused on delivering high quality. Cost Effective Solutions for Consumer electronics and automobiles for the Domestic (India) and International markets. Taehwa is a pioneer in BLDC motor technology. In India, Teahwa is one of the leading Electromechanical Manufacturing Services (EMS) provider companies. Taehwa India started in 2004 and it is ISO 9001 certified and also TS16949 certified for automobiles. This plant is a state-of-art manufacturing plant in Greater Noida where they manufacture Stator Core Assembly, Compressor Shell Assembly, Radiator Motor Housing Assembly, Whifa Ceiling Fans, Whifa Ventilation Fans, etc.

Students reached Taehwa Enterprises at around 12:50 P.M. They have a meeting with HR head. He has summarized about the products and work function of company. After interaction with HR head, they visited the plant. They observed the manufacturing processes on hydraulic presses of different capacities and wide range of Motor Assembly Lines. Students understood the spot welding process in detail. They came to know about designing and manufacturing Press Tool Dies for any kind of component / manufacturing activity and wide range of Jig Designs. They understood various testing facilities inside the plant. They also got the information about the testing and quality standard of the company.

Dr. Sanjay Yadav, Head, Mechanical Department, emphasized the need and importance of such visits in future also. Prof. Manvendra Yadav, Visit Coordinator took the charge of this industrial visit efficiently. More than 25 students visited the industry.

#### Visit Outcome:

- The students learned about the basic manufacturing processes of different automobile parts.
- The students understood the complexities of manufacturing techniques to achieve the desired quality.

Event Coordinator: Ms. Preeti Singh, Mr. Rohan Srivastava and Mr. Chetan Dixit, Assistant Professor, Department of Mechanical Engineering.

Industrial Visit Objective: To provide students an overview of various types of chemical processing techniques used in brewery industry. Students can know about the various steps involved in the processing of these grain based fermented products. Students visited the product selection, process and inspection in this industry.

Report: Department of Mechanical Engineering, I.T.S Engineering College Greater Noida has organized an industrial visit for B. Tech Final year students. Students visited the Carlsberg India Pvt. Ltd. Company. Dharuhera, Company manufactures two popular brands of beer, 20 students reached Carlsberg India Pvt. Ltd. Company, Dharuhera at 10 AM. They have a meeting with HR Head. He has summarized about the products and their production processes. After interaction with HR head, they visited the plant. Students observed the heating of rice, malt and water through the boilers and a slurry paste is made. After this the slurry paste is refined and its fermentation is done for 8 days. After fermentation, yeast is mixed to it to make alcohol. Finally packaging is done in bottles and cans. Students visited the product selection, process and inspection department. Students observed the functioning of boilers, compressors and condensers. Further, they visit testing and quality control department. They got the information about the testing and quality standards of the company.

#### INDUSTRIAL VISIT

Industrial visit is a integral part of curriculum during which students visit various industries and technical exhibitions and get insight of on the internal working environment of the industries. Industrial visit has its own importance for building professional career for both engineering and management students. The activity of industrial visit connects dots of theoretical and practical knowledge earned by students in academia and industrial environment.

The key objectives of the Industrial Visits are:

- -To recognize and understand the various engineering/managerial processes.
- -To identify the input and output for different processes
- -To understand how does the product of plant interfaced to the world.
- -To become aware of the role of different people in an organization.
- -To become aware of career opportunities.
- -To recognize the need for health and industrial safety in the workplace.

In past years institute has organized various industrial visits for students and faculty members.

SUPERTECH UPCOUNTRY PROJECT, YAMUNA EXPRESSWAY GREATER NOIDA; B.Tech Civil Engineering students and faculty members were visited the company and got to learn the drawings related to the construction activity such as architectural drawings, layout plan, site plan, footing plan, and structural drawings such as section of walls, footings, beam and slab etc.

## BG SHIRLEY CONSTRUCTION TECHNOLOGY PVT LTD, GREATER NOIDA:

At the Site the extra advantage was that foundation work was being done which is considered of huge importance for gaining knowledge in practical aspects of civil engineering. Modern techniques such as steam curing, pre-casting were used at the construction site. The students were then taken to the pre-casting plant which was a new experience for everyone. Students questioned their allotted guides and watched the process of pre-casting, fast cutting of reinforcements by machines, etc. with huge enthusiasm. The plant focused on minimum manual labor and maximum machine work for better efficiency.

ULTRA TECH CEMENT RMC PLANT IN GREATER NOIDA: At "Ultra Tech Cement RMC Plant" in Greater Noida, the students got to learn the chemistry of concrete and the procedure as well extra effort required at RMC.Students studied the working and were able to compare them with the normal concrete mix design.Students saw and learned the preparation of Ready mixed concrete (RMC) at a batching plant and its transportation to the construction place. They saw and learned about the different grades of concrete (PCC/RCC) being used at the construction site.

Nihamiks.

THE HEMISPHERE'(AMRAPALI GROUP) CONSTRUCTION SITE IN GREATER NOIDA: At the site Students learned about the quality control (QA/QC) of construction materials such as fly ash bricks, cement, sand, coarse aggregate, sandstone, etc. used at the site for different construction related activities. They also saw and learned about the safety precautions being used at the work site.

INDUSTRIAL VISIT AT EKO PRO ENGINEERS PVT. LTD., GHAZIABAD.: The Department of Civil Engineering organized one day Industrial Visit at "Eko Pro Engineers Pvt. Ltd., Ghaziabad for the B.Tech third year students on 05th Oct, 2017. During the session the students were exposed to various advancement and new technologies emerging in the field of environmental engineering. The exhibition also included various advanced machineries that have been used nowadays for various physical and biological testing of food, level of harmful gases in environment etc. It also gave students an insight about the various new testing methods emerging in the field of concrete and soil to calculate there strength.

#### Report:

An industrial visit was conducted by the Civil Engineering Department for students of Civil Third Year on 26/Oct/2016 at the located at Supertech Upcountry Project, Yamuna Expressway Greater Noida

- During the visit, the student got to learn the drawings related to the construction activity such as architectural drawings, layout plan, site plan, footing plan, and structural drawings such as section of walls, footings, beam and slab etc.
- Students saw working drawings and were able to compare them with the actual construction.
- Students learnt about various concrete grades and precast members and concrete blocks that are used in construction sites.
- Students learnt about the detailed drawings of beam column and slabs and also saw the
  detailing on site also.
- Students came to know about the quality control (QA/QC) of the construction materials such as fly ash, bricks, cement, sand coarse aggregate, sandstone etc, used at the site for different construction related activities.
- Students saw and learnt about the safety precautions being used at the work site.

#### Program Outcome:

- 1. Students were able to learn the practical exposure of the construction site.
- Students were able to learn and experience the procedures and methods adopted at the plant for construction activity.

#### Annual Report

I.T.S Engineering College providesa holistic learning experience to the students. We celebrate various festivals, commemorate important days and organize cultural as well as literary events in our campus. Our students, therefore, understand the values of celebrating each and every recognized day such as the World Health Day. World Science Day for Peace and Development, Science Day. Incubation Day, Girl Child Care Day, various oath taking ceremonies and commemorative events. Our institution has a great thrust of overall development of students and so here in our campus all students celebrate different events and in this way a common harmony, social welfare, happiness and creativity are developed among students.

Students of different regionsstay here, celebrate different days with full enthusiasm and complete harmony towards cultural, regional, linguistic, communal, socioeconomic and other diversities. Any scientifically driven and logically inclined person would take pride in celebrating these days as it becomes all the more important for the reason that it induces peace and harmony among people. These events help in inculcating greater awareness in students, foster the feeling of team work, enhancing presentation skills of students, encouraging people to lead a healthier lifestyle, popularizing science and technology, encouraging everyone to think in the path of health and happiness for all. This is a platform, which not only focused on enhancing skills, but aids in promoting solidarity for one's own country.

With the help of these events many purposes are solved in a single step like teaching fraternity could brainstorm in a particular direction, authorities concerned could instigate the feeling of working in unison, faculty and students collaborated to show their reasoning and other related skills, the feeling of team work could be foster, and many more. The celebration of commemorative days like Women's Day, Yoga Day, Cancer Day, AIIDS along with many regional festivals, such asDiwali, Holi and Lohri establish positive interaction among people of different racial and cultural backgrounds.

Different sports, literary and cultural activities such as chess, badminton, tennis, nukkadnatak, dance, singing, battle of bands, essay writing, debate, chai pecharcha, elocution/poetry, management quiz, mathematical and quizzes on current affair, word games, memory chain, poster presentation and declamation contest, and many more competitions are organized in the College to promote harmony towards each other.

Date of Event: 14th December, 2020

Organized by: EEE Department

Event Coordinator: Mr. Prabhakar Sharma, Assistant Professor ECE Department

Objective: To known the values of energy conservation and its various methods with importance in human life.

Report: This Guest Lecture is specially organized to engineering college students of various branches like ML, LCL, LLL, faculties and technical staff. Guest Lecture was scheduled on 14th December, 2020 from 11:00 AM by Dr. Sanjay Agrawal. Associate Professor-SOET. Maidan Garhi, New Delhi, Guest Lecture Topic was "Energy Conservation - Energy Conservation is the foundation of energy independence- Thomas A. Allen" on the Occasion of World Energy Conservation Day. World Energy Conservation Day is celebrated to encourage society to reduce the amount of power it consumes. In layman's terms, this means embracing strategies like: Conservation - e.g. remembering to turn off the lights when you're not using them.

Dr. Agrawal explained the importance and various methods of energy conservation. He also suggests that how energy conservation is important in human life and how it impacts on the various major problems of environment. This program was totally online. Zoom meeting Link for this Program is as:

To discuss all the issues and implement new technologies for the development in the field of Mathematics.

. To give an opportunity to the students and to encourage them to give the solutions to the problems facing our society.

Report: The Department of Applied Science and Humanities (ASH) celebrated online National Mathematics Day on 22<sup>nd</sup> December, 2020 to commemorate the 131<sup>st</sup> birth anniversary of the renowned mathematician. Sir Srinivasa Ramanujan. His contribution to different fields and branches of mathematics is highly remarkable.

The event was celebrated by paying a belitting tribute to the Mathematics wizard amidst floral presentation by the students and faculty members. To raise awareness and interest in this calculative subject, students participated in Mathematics quiz, poem and Poster competition organized by the Department. The winners were also felicitated by a certificate.

Overall, the event was a highly successful one that ended on a very pleasing note with a promise to have more such events in future.

#### Program Outcome:

Like any other important day, the National Mathematics Day too has been a very significant occasion. #### Objective:

International Animation Day (IAD) was an international observance proclaimed in 2002 by the ASIFA as the main global event to celebrate the art of animation. This day commemorates the first public performance of Charles-Émile Reynaud's Théâtre Optique at the Grevin Museum in Paris, 1892. ASIFA also commissions an artist to create an original art poster announcing the event each year. It is then adapted for each country in order to guarantee a worldwide view of the event

#### Report:

Department of Computer Science & Engineering organized an Event "International Animation Day" for All branches of B.TECH Students on 22nd October, 2019 in Raman Hall. The event began with welcoming of The HOD sir and The Faculty members of the Department. We had two events which were in sequence. The First Event was Animation Presentation which had a total of 3 teams and "Rangoli Making" was next on the list out of which 5 teams has participated. The Next event was "Quize" which was open for all audiences along with facultys."

IST EVENT WINNER (Animation Presentation)
 1st was Al Masum Ghazi and
 2nd was Chandan Pandey

2nd EVENT WINNER (Rangoli making Team Of 2 members)

ITS Engineering College

1st was Nikita And Sarika .

2nd was Rachna And Alok.

Program Outcome:

Like any other important day, International Animation day is to encourage the development of Animation Skill, Awareness about new tools in Animation and how effectively give the message to people.

#### Scope of Improvement:

- Students from CSE departments & other departments can involved to make his event more successful.
- A variety of events related to Short Animation Films, Social message Animation Video can be added in future.

# Objective:

World Environment Dayis celebrated every year; this is the sole event for environment protection. Its main objective is to protect and nurture our environment to achieve the sustainable development of the world.

# Report:

World Environment Day is a UN Environment-led global event, the sole largest celebration of our environment each year, which takes place on June 5 and 1s celebrated by thousands of communities worldwide. Since its commencement in 1972, it has grown to become a global platform for public outreach that is widely celebrated across the globe.

World Environment Day celebrated on Friday, June 5th, 2020. The theme of this World Environment Day is "Biodiversity." This year the host of World Environment Day is Colombia.

Reflecting the Indian philosophy and lifestyle of co-existence with nature, I.T.S Engineering College - a premier technical institute in Greater Noida has also contributed in a small way to celebrate World Environment Day coordinated by Dr P. C Jha.

Dr. Vikas Singh, Executive Director, LTS Engineering College after planting sapling urged everyone to come together in fighting the global menace of Pollution and decreasing biodiversity.

Dr Singh also said that the only way to achieve this is to plant more diverse trees which will help to decrease pollution level and increase biodiversity of our ecosystem. Program Outcome:

This event is important for the survival of mankind on earth.

The following outcomes were achieved through the event-

Everyone by planting tree share a common goal of environmental protection.

- · The students of technical background were sensitized for environmental protection
- · Green cover of surroundings is increased.

# National Energy Conservation Day

### December 14, 2018

IEEE Power & Energy Society of Department of Electrical & Electronics has celebrated "National Energy Conservation Day" on 14th Dec. 2018 with a faculty colloquium session on the topic "Energy Conservation: Need of the Hour" by Prof. Upendra Agarwal, Dept. of EEE.

The celebration started with a welcome address by Prof. (Dr.) Monika Jain, Head, Dept. of EEE, & IEEE PES Chapter Counsellor

Prof. Agarwal has delivered the session by focusing on the increasing demand of energy and rapidly depleting conventional energy resources. He broadly discussed the areas like Saving of Energy. Efficient utilization of Energy and use of Renewable Energy sources for its better conservation. He has also highlighted about Petroleum Conservation Research Association (PCRA) and Bureau of Energy Efficiency (BEE), the major government bodies who is taking initiatives for conducting awareness programs about energy conservation nationwide. Further he mentioned about the Energy conservation bill passed by Government of India in the year2001, to make various rules, regulations and standardization of parameters for energy efficient appliances, meters and distribution systems. At the end, he has concluded the discussion quoting that, to deliver the energy to all and save the environment, it is our individual and social responsibility to conserve energy at all levels.

On this occasion, Shri Sohil Chadha, Vice Chairman- I.T.S Group of Education has recommended all to contribute towards energy conservation for cominggenerations' better & safe future.

Thus the event ended with a healthy discussion on the topic followed by a vote of thanks by Prof. Kalpana Hazarika. Department of LLL, ILLE Student Branch Event Coordinator.

Dear HODs,

We have drafted the following for our B.Tech 3rd Year students of batch 2022. This mail is with reference to their mandatory presence at the campus for the training that is to start from 1st April 2021.

Please make sure that similar information is conveyed by your medium and our faculties so that we could achieve what we are aiming for in the next session.

Regards Shalini Khatri **Head CRC** 

Dear B.Tech 3rd YearStudents,

We will be starting our campus placement drives for B-Tech 2022 batch from September 2021 onwards. As per the feedback received from HR and Technical team experts, it has been observed that students are lacking in technical and aptitude skills required by industry. Thus to ensure that the students are able to crack major interviews and get placed. We have decided to initiate a training program with effect from April 1st 2021.

Training will be conducted in Phase-1 (Aptitude and Technical training) conducted by an outsourced agency based on the consent for which was signed by you. All registered students who have given their Technical training consent will be a part of this program. Batch 1 & Batch 2 would be formed before 1st April 2021.

# Phase -1 schedule (April 1st to April 15th) for your reference:-

Module	Number of session	Number of hour
C Programming	15	45 hours
Quantitative Aptitude	10	30 hours
Logical Reasoning	5	15 hours
Total	30	90 hours

Phase 2 - Soon after the 6th Semester exams

Phase 3 - Before first CRC placement drive

We would be having 2 Trainer from Skillbout, Bangalore taking 15 days continuous technical and aptitude sessions in our college. The classes would **start from 1st of April till 15th of April 2021**. This would benefit you to crack most companies and top brands. Complete schedule for the same is attached for your reference.

### Note :-

- All training will be conducted in the institute premises.
- Only those students would be offered placement through CRC who rigorously attend the training program.
- Placement readiness program slots will be scheduled in place of academic classes for 15 days. Academics classes will continue after training.
- Proper monitoring of the attendance to be done by CRC.

Best Wishes!! Shalini Khatri Head CRC

# I.T.S ENGINEERING COLLEGE GREATER NOIDA (NAAC Accredited)

**Event Summary** 

30<sup>th</sup> June, 2021

Corporate Resource Center had organized Individual Career Plan session to all B-Tech & MBA 2022 batch students.

Individual Career planning encourages individuals to explore and gather information, which enables them to synthesize, gain competencies, make decisions, set goals and take action.

try to identify and utilize hidden skills and attributes of our students and ensure the right candidate with the right skills in right direction at the right time.

CRC interaction schedule -2 today's program was executive:-

Batch Name	Timing
Batch 1	4.30pm - 4.45pm
Batch 2	4.50pm- 5.05 pm

### Key points discussed :-

- > Companies On Boarded for 2022 Batch August and September 2021
- > Current strategy by Skill Bout team

Runas

- > Providing strong assessment platform (AMCAT & Cocubes)
- > What is expected out of you?

We have a very good interactive session with close to 100+ participated in each session. CRC Head- Shalini Khatri welcomed the students on behalf of Corporate Resource Center, ITS engineering college and students. Students actively participate and while concluding provide their positive for such informative knowledge sharing session

Dr B.C Sharma, Director -ITS Education Group, Mr. Sohil Chaddha has extended his best

wishes on this occasion.

**Event Summary** 

15th May 2021

ITS Engineering College, Greater Noida had organized an exclusive Webinar powered by IBM Skill Boxfor students to get an insight on basics of designing. This webinar was arranged for all BTech 2022 & 2023 on 15<sup>th</sup> May, 2021 between 11.00am to 12.00pm.

The Department of Corporate Resource Center of ITS Engineering College organized this event to get our students exposed to latest industry need in Designing field.

Topic - Basics of Designing Key Note speaker :- Mr. Himanshu Yadav, Lead Designer-BOScH India

Most of students were curious on the topics and was a very motivated during the sessions. We had around 185 + Students attended this session.

This is an effort to bring together some corporate connects to students which will help them for future placement readiness and students to get technical upgrade straight from industry.

Would also like to take this opportunity to thank CRC team for coordinating this virtual event and made it a grand success.

CRC Head- Shalini Khatri welcomed the eminent guests on behalf of Corporate Resource Center, ITS engineering college and students. Students actively participate and while concluding provide their positive for such informative knowledge sharing session

Dr B.C Sharma, Director –ITS Education Group, Mr. Sohil Chaddha has extended his best wishes on this occasion.

Corporate Resource Center would like to extend our profound gratitude to our complete support team and students who graced this occasion. We will look forward organize some more event as planned by CRC.

ITS Engineering College, Greater Noida had organized Individual Career Plan session to B-tech 2022 and Btech 2023 students.

Individual Career planning encourages individuals to explore and gather information, which enables them to synthesize, gain competencies, make decisions, set goals and take action. We try to identify and utilize hidden skills and attributes of our students and ensure the right candidate with the right skills in right direction at the right time.

ICP would initiate multiple projects and encourage students to work on solving complex problems using knowledge, skills and critical thinking. Students will develop the ability to apply the latest technology to find a solution for the complex problem in ever changing business world."

This was detailed interactive session conducted by ED sir where he explained about the ICP and the outcome of the same. He also explained the AI platform which will support capturing their capstone projects and measure their skill based on their aspiration. "Students profiling and project data updating" by Krackin Skillx team will be initiated for the 2nd and 3rd year students. The platform is built using AI so helps in accomplishing the career goal (Data Scientist/Software Developer/ Testing etc.). Several modules covering all the aspects i.e. starting from fundamentals to the advanced, learning stage, analyzing the performance and then accordingly gives recommendations the user participant. This session was successful conducted in two slots as enclosed below for 2023 and 2022 batch students:-

Slot	Timing	Batch	Total Students

#### REPORT OF VALUE ADDED COURSE

1.	Title of Value Added Course	Data Structure and Algorithm Using C
2.	Curriculum of Course	Enclosed
3.	Name of Trainer	Mr. Rajeev Kumar Gupta, Training Manager, RCPL Mr. Anoop Kumar Verma, Sr. Trainer, RCPL Mr. Damodar Swami, Trainer, RCPL
4.	Total Hours	60 Hrs
5.	No. of Enrolled Students	B.Tech - CSE : 125 B.Tech - ECE : 19 Total : 144
6.	No. of Qualified Students	B.Tech - CSE : 49 B.Tech - ECE : 10 Total : 59
7.	Course Outcome	Ready for Interviews and Coding Challenges:     Data structure concepts are often tested in technical interviews and coding challenges, especially in the context of software engineering and computer science job applications. Learning data structures helps students perform well in these assessments.      Understand data organization: Data structures help students comprehend how data is organized, stored, and accessed in computer memory.      Efficiency and performance: By learning about different data structures, students can analyze and compare their time and space complexities.      Problem-solving skills: Data structures provide a foundation for solving various programming challenges and real-world problems. Learning how to implement and use different data structures improves students' problem-solving abilities.

## **Assessment Procedure of Training Programs**

The Assessment Procedure of training program is a combination of MCQ using Google Form as well as the execution of programs.

- Evaluation shall be done based on the performance in the ten Assessment
- · Tests with 50 marks each.
- Ten tests shall be conducted, preferably one each (Total 9) at the end of each topic and the one at the end of the course by the respective trainers.
- The duration of assessment shall be 50 minutes each.
- The pattern of question paper decided by the respective trainers.

#### **Passing Criteria**

All students who have a 75% attendance, completed all the class assignments, and participated in all the quizzes have qualified the Data Structure and Training Programme.
