

# I.T.S Engineering College

## Infrastructure and Physical facilities

The Institution upholds an optimistic approach towards the enhancement and upgradation of infrastructure which is based on the curriculum requirement as per the norms of AICTE and Dr. APJ Abdul Kalam Technical University. A consistent improvement in the quality of knowledge imparted to the students is our major focus thereby the infrastructure caters to the current needs.

The campus is spread over a land area of 12.37 acres of which the total built up area of 20290 sq.mt. and instructional carpet area is 10914.94 sq.mt. with excellent infrastructural facilities like spacious classrooms, laboratories, workshops, library, faculty rooms, conference halls, auditorium, administrative block, Hostels for Boys and Girls.

The Institute provides resources and infrastructure for academic excellence according to its vision and strategic objectives as under:

- a) **Learning Resources:** Classrooms, laboratories, workshops, Centre of Excellence, Innovation centre, Incubation centre, seminar halls, library etc.
- b) **Support facilities:** Auditorium, Amphitheatre, Cafeteria, hostels, ATM.
- c) **Utilities:** Safe drinking water (RO), washrooms / restrooms, firefighting system, Power Generator system for backup, etc.

**Technology Enabled Classrooms/Tutorial room:** The College has 37 technology enabled classrooms and tutorial rooms well equipped with Computer/Laptop, LCD projector and LAN Internet connection. As per the norms of the regulatory body, the classrooms and tutorial rooms are well equipped with adequate furniture, proper lighting facilities and good ventilation providing a very healthy teaching learning environment.

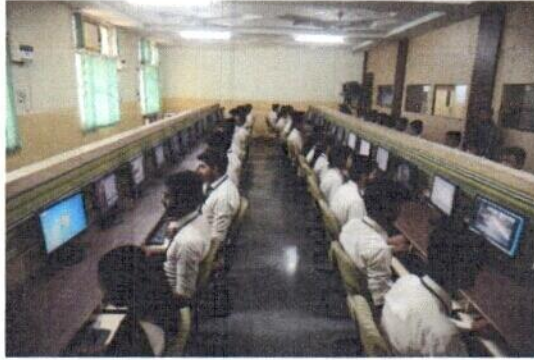

**Laboratories/Workshops:** The College has 75 state of the art laboratories and workshops for conducting practical orientated academic activities of the curriculum of the University.
